

## 2024 Non-Creditable Pharmacy Plans for Oregon

Medicare regulations require employers that provide prescription drug coverage through a group-sponsored health plan to disclose whether their prescription drug coverage is “creditable” to their Medicare-eligible employees and, in some cases, to their retirees. Coverage is defined as creditable when its actuarial value equals or exceeds the standard Part D prescription drug benefit.

In general, the actuarial value of the benefit is determined by whether or not the prescription drug coverage is expected to pay out, on average for all participants, at least as much as the standard Part D coverage would pay. If the coverage does not equal or exceed the value of the standard Part D benefit, the pharmacy plan is considered “non-creditable.”

Health Net has assessed its 2023-2024 commercial pharmacy plans<sup>1</sup>. Most of our pharmacy plans meet or exceed the actuarial value of the standard Part D benefit and are therefore considered “creditable”. However, there are some plans that have been deemed non-creditable.

You will find the list of non-creditable plans below. Please note that HSA-compatible pharmacy plans can be both creditable and non-creditable, depending upon whether the plan is primary or secondary to Medicare.

**If you do not find your current commercial pharmacy plans listed on the following page, it is considered creditable.**

### Non-Creditable Pharmacy Plans for Groups (1 – 50)

Rx Plan Code	Product	SBG Plan Description	Assumes Medicare is NOT Primary	Assumes Medicare is Primary
